Career Objective

I am seeking a Backend Engineer internship to gain hands-on experience developing and operating large-scale systems, strengthen my programming Java/Python skills, apply and operationalize AI in real-world projects while working with modern tools and technologies.

Soft Skills

Communication and teamwork

Problem-Solving and Learing Fast

Flexibility and Adaptability

Hobbies

- Reading book, learing new technology
- Play football

Education

Computer Sience Major

October/2022 - Now

10/2024 - 01/2025

Open University

- Awarded Merit-Based Academic Encouragement Scholarship
- Participated in an undergraduate scientific research project

Experience

Student Management - Role: Fullstack

Member: 3

https://github.com/thien0709/StudentManagement.git

Web application for managing student information and academic activities in schools. Using Python and framework Flask.

- Implemented the **student intake** workflow with validation and **automatic class allocation** based on defined rules.
- Led **system design** (data models, system structure) and performed **testing** with clear test cases.
- Built **analytics & reporting**: student counts by **class** and **academic year**, plus **per-class subject score** statistics with charts or tables.

Smart Learning System - Role: Fullstack

07/2025 - Now

Personal

https://github.com/Dikhang1112/SmartLearning-System.git

Al-integrated learning platform for students and teachers.

- Built end-to-end flows for student intake and class allocation, managed students/teachers by class.
- Developed RESTful APIs (Spring MVC) and React UIs, integrated AI to analyze teacher materials. The system provides answers and automatic scoring for students.
- Implemented **real-time chat** and **email notifications** for exercises, submissions, and activity updates.

Technical Skills

- Languages: Java, Python, JavaScript, Html and Css
- Framework: Spring Data JPA, Spring Security, Spring Web MVC, Flask
- Libaries: React Js, React Router
- Database: MySql, Sql Server
- **Tool:** Github, Postman

Certifications

6/2025 Toeic: 610

02/2024 F8 Course - JavaScript Basic

12/2023 AWS Academy Graduate - AWS Academy Cloud Foundations
